

## Term 5 Topic Homework – How Climate Change Affects Farming

Please complete one or two of these activities to complete before May half term. Please feel free to come up with your own creative idea too!

<p>Make a poster to show some of the effects of climate change.</p> 	<p>Create a piece of artwork, inspired by climate change.</p> 	<p>Make a climate change diorama.</p> 	<p>Make a 3D model to raise awareness of climate change.</p> 	<p>Create a mosaic of the Earth.</p> 
<p>Research different types of renewable energy. Make a presentation of fact file, to show the different types.</p>	<p>Write a creative story based around climate change.</p>	<p>Research some of the animals and wildlife, which are affected by climate change. Make a fact file or written report about it.</p>	<p>Research the effects of greenhouse gases. Create a poster to display in school, to show ways how we can reduce these.</p>	<p>Bake a cake or cookies, inspired by climate change. Is it possible to use all British ingredients, to save on 'food miles'?</p>
<p>When you go food shopping, have a look at the food labels. Calculate which items have come from the furthest away. You could mark these onto a map of the world.</p>	<p>Up-cycle some rubbish at home, to create something new. Could you make something or create some art with it?</p>	<p>Can you fix or repair something at home, to save it going into the bin?</p>	<p>You could try and have a device (electricity free) day one weekend to help save your energy use. Please don't turn off your fridge or freezer at home though.</p>	<p>Waste free lunch. Can you make your packed lunch with zero plastic packaging?</p>
