

CLASS 4 BLOG

Outdoor P.E.

In outdoor P.E., we are doing tag rugby. Tag rugby is a sport where you take peoples' tags when they have the ball and then they have 3 seconds to throw the ball to one of their teammates.

We have been learning how to pass the ball to each other.

Indoor P.E.

In indoor P.E. we are doing mirroring each other while doing rolls and balances.

Archery day

On the 24th January a man came to our school to do archery with us in the hall.

At first, we started to have a go at shooting at the targets for fun. Next, we played a game where we had partners and our partners had to multiply our scores by 3, and add them together. We had three goes each. Whoever had the most points at the end won. We also played lots of other fun games.

Art and history

In history, we are learning about WWII and how people had to use old clothes for sewing and making them into different things.

Which is why we are doing sewing in art. We are sewing old clothes to make things like pet beds, rucksacks and drawstring bags.

English

In English we are planning and writing quest stories based on our original story; Skillywidden. Our stories must have a problem, a resolution and a conclusion.

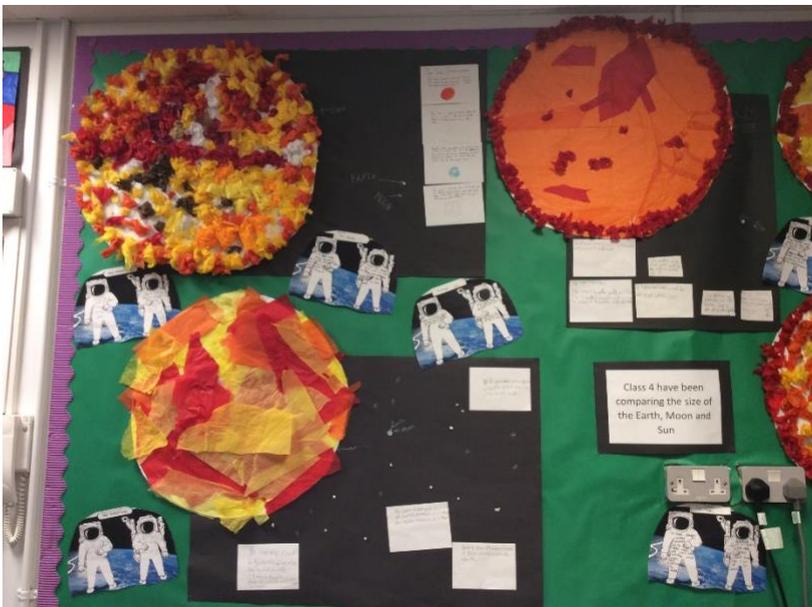

Maths

In maths we are learning about line graphs and making them to help us with our times tables. Also percentages of pie charts.

Science

In science we are learning about the Earth, the Sun and the Moon.

We have been making to scale diagrams of them on black pieces of paper and sticking red, yellow and orange tissue paper on the Sun.

R.E.

In R.E. we are learning about Hinduism and how they believe that one God takes many different forms and is everywhere at the same time.
